

YUVRAJ SINGH PANWAR

Dehradun, Uttarakhand
yogipanwar173@gmail.com
8126935236

PROFESSIONAL SUMMARY

Full Stack Developer proficient in PHP, Laravel, JavaScript, jQuery, CSS and Bootstrap. Skilled in building scalable systems, developing RESTful APIs and adhering to accessibility standards. Familiar with AWS services, quick to learn new technologies, and a productive team player focused on delivering high-quality software.

EXPERIENCE

NetDomains Pvt Ltd – Software Developer – Bengaluru, Karnataka – June 2024 to April 2025

- Developed secure multi-user authentication with role-based access for various user types.
- Designed database schema and implemented backend logic for referrals, reward withdrawals, and membership upgrades.
- Integrated payment gateways and RazorpayX for seamless payouts.
- Built an admin panel to monitor user activities and a dynamic dashboard with statistical charts.
- Deployed projects using Coolify, managed AWS S3 buckets, and used CloudFront CDN for asset delivery.
- Created and tested RESTful APIs using Postman and coordinated with frontend developers for integration.
- Led junior developers by assigning tasks, conducting code reviews, and maintaining production and staging environments.

World IT Dimensional Solution – Software Developer – Dehradun – June 2023 to February 2024

- Underwent intensive training in PHP, Laravel, JavaScript, CSS, and MySQL.
- Transformed core PHP projects into scalable Laravel MVC applications.
- Contributed to CRM, LMS, and news website projects.
- Developed responsive frontends using Bootstrap and ensured secure backend functionality in PHP.
